

# The new Amarok Brochure

Commercial  
Vehicles

# This is Amarok

## The pick-up by Volkswagen Commercial Vehicles

The new Amarok is here, making a clear statement for its drivers: **all roads are the destination.**

Fundamentally reimagined, the Amarok defines the premium segment at Volkswagen Commercial Vehicles with its modern technology and redesigned styling.

No matter where or when, the Amarok, equipped with 20 new driving assistance systems, offers more support than any of its predecessors.

Vehicle shown may not reflect UK specification.

# This is **Versatility**

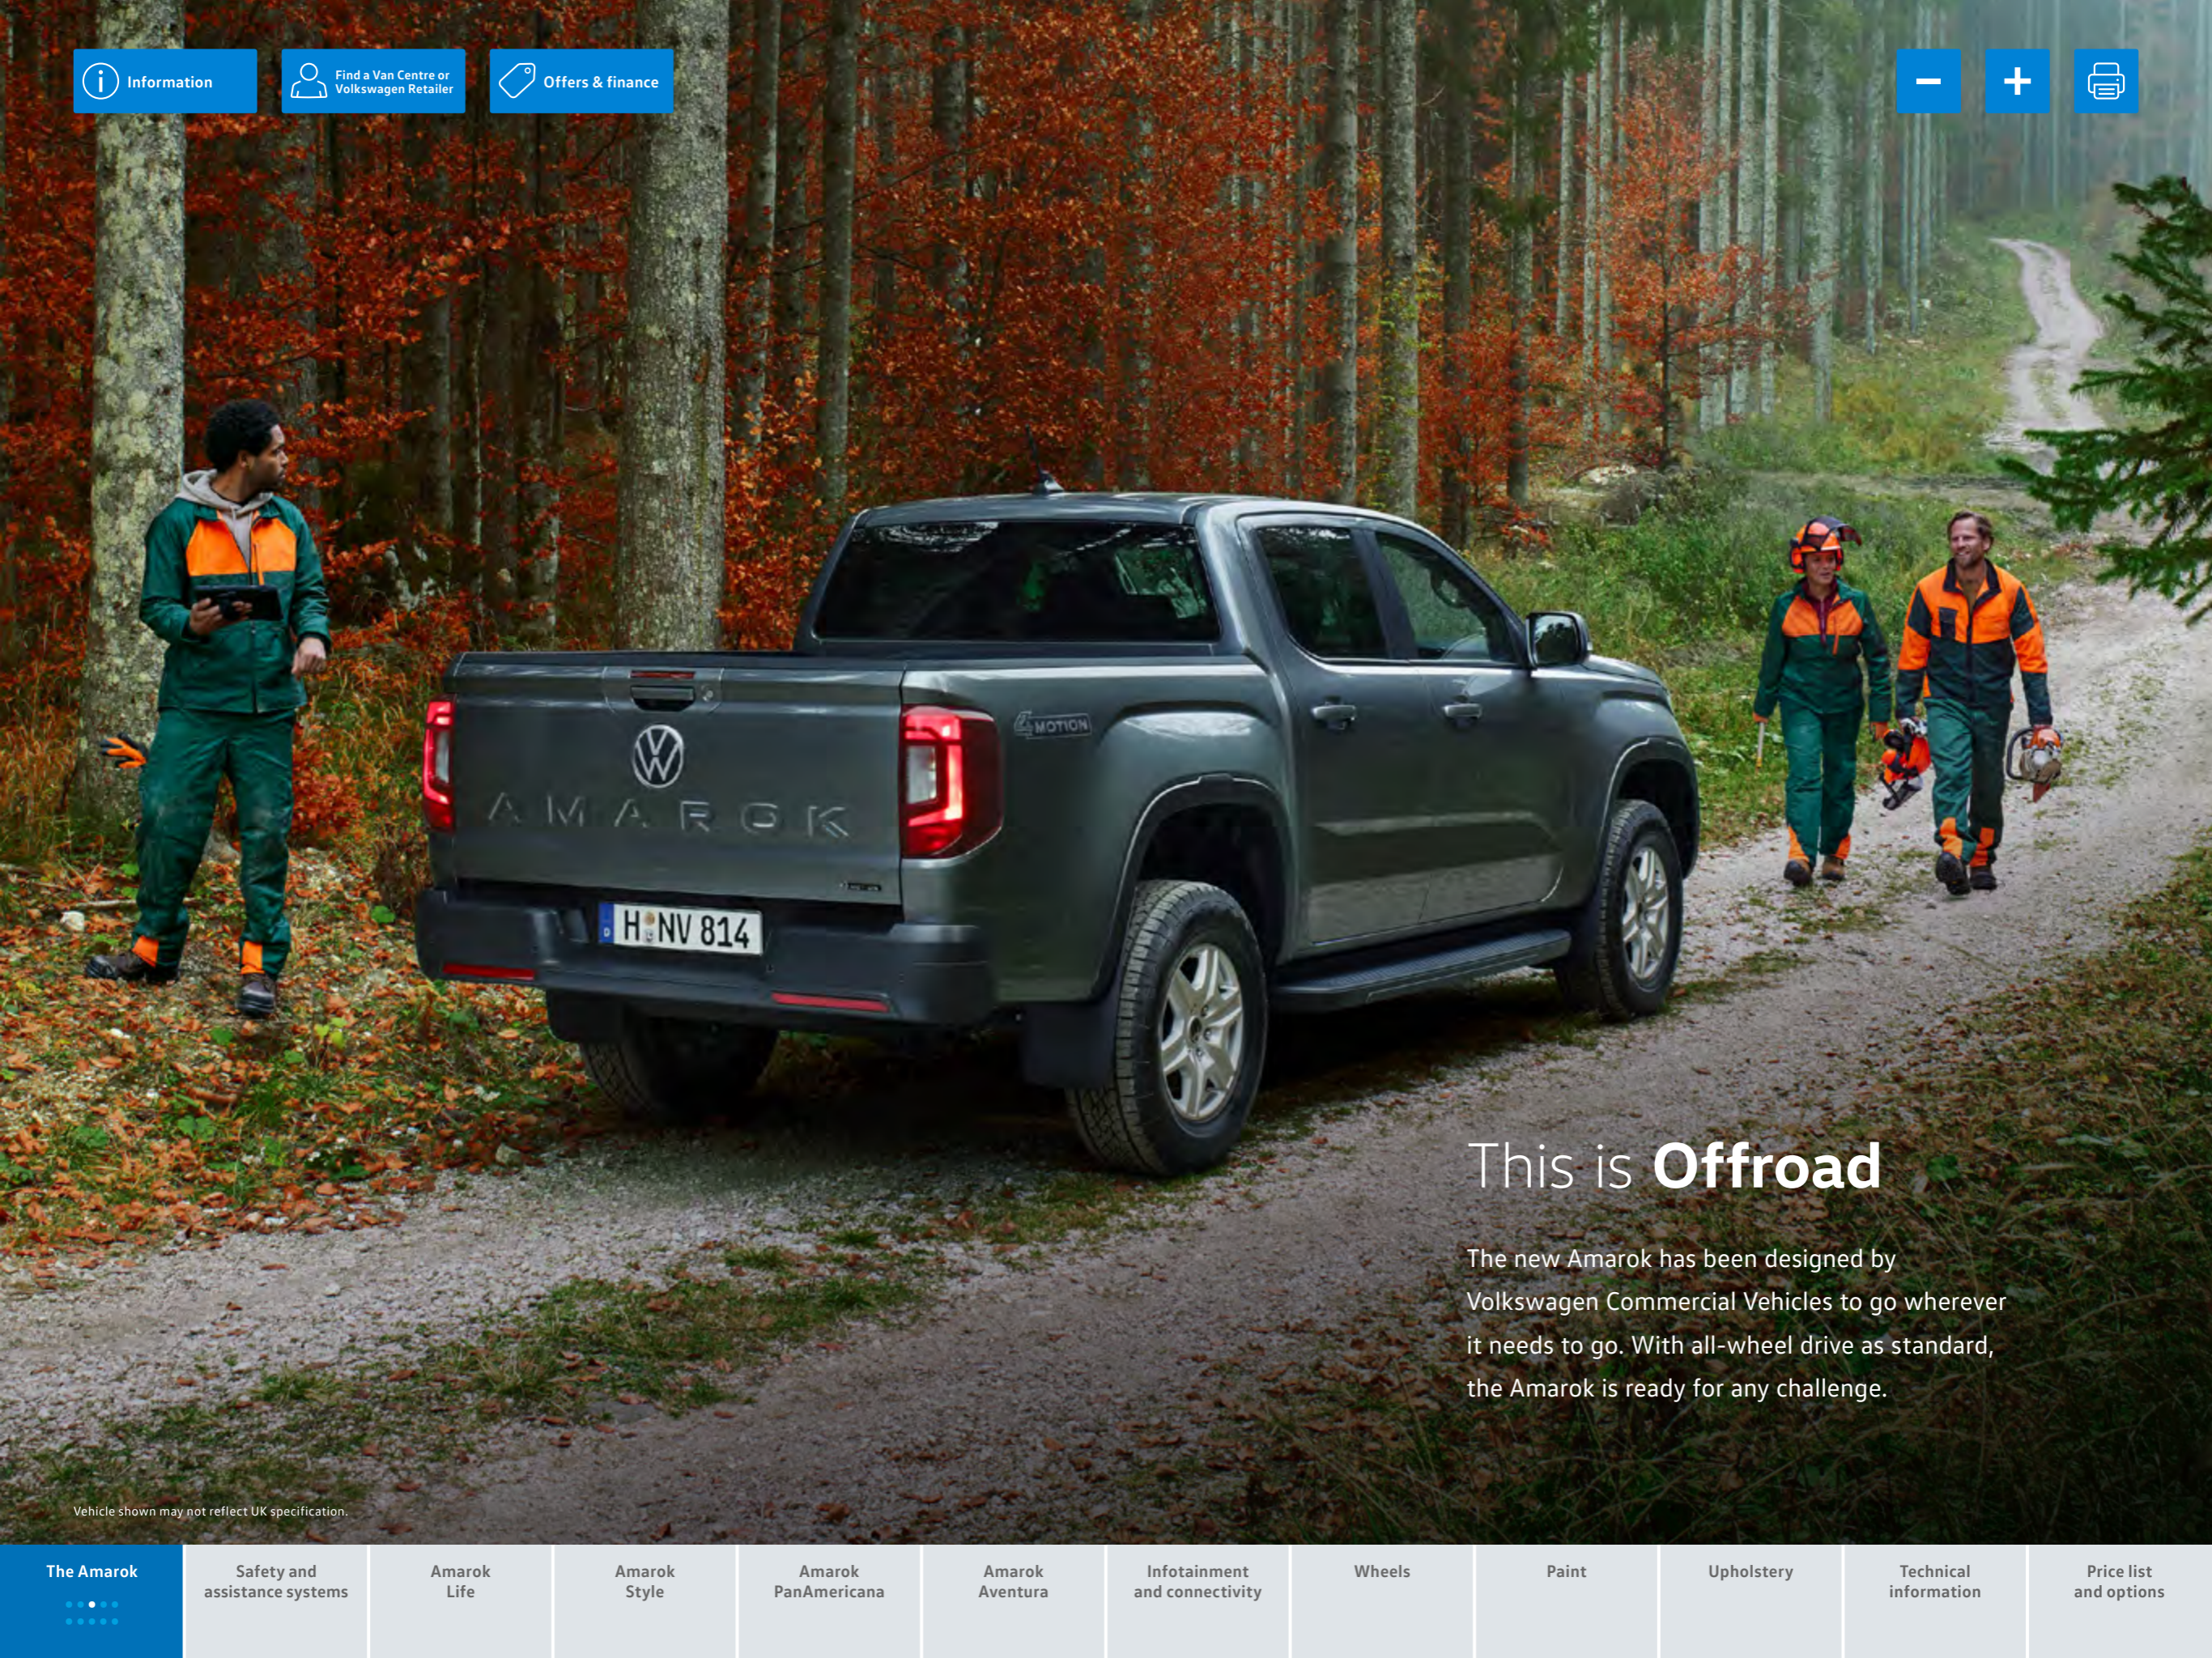

## A new kind of multi-tool for every task

The new generation of the Amarok masters every task you can throw at it, with a payload of up to 1.13 tonnes and a 3.5-tonne towing capacity. It also features new drive, assist and control systems, as well as a cargo box with more utility than ever. All this, coupled with the typical robustness of a pick-up, makes this second-generation Amarok the ideal ultra-modern multi-tool – wherever the road takes you.

### Six different driving modes

The new Amarok comes as standard with a 'Drive Mode Control' system. Depending on configuration, there are up to six drive modes: 'Eco', 'Normal', 'Mud/ruts', 'Sand', 'Slippery' and 'Load/trailer'. Depending on the mode selected, the steering power and steering behaviour, stability control and slip control, drive train response, gearbox control system and selectable all-wheel drive settings are all co-ordinated and optimised.

Vehicle shown may not reflect UK specification.

# This is Offroad

The new Amarok has been designed by Volkswagen Commercial Vehicles to go wherever it needs to go. With all-wheel drive as standard, the Amarok is ready for any challenge.

Vehicle shown may not reflect UK specification.

<b>The Amarok</b>	Safety and assistance systems	Amarok Life	Amarok Style	Amarok PanAmericana	Amarok Aventura	Infotainment and connectivity	Wheels	Paint	Upholstery	Technical information	Price list and options
-------------------	-------------------------------	-------------	--------------	---------------------	-----------------	-------------------------------	--------	-------	------------	-----------------------	------------------------

**Longer wheelbase**

The new Amarok is 5,350mm long – 96mm longer than its predecessor. A wheelbase of 3,270mm corresponds to an increase of 173mm – which means there is more space in the crew cab. Since the wheelbase is now longer in proportion to the overall length, the body overhangs are reduced. This adds to an increased slope angle and a better off-road capability.

**An adaptable transmission**

The new Amarok has the right answer for almost every driving situation. It also has the right transmission for almost every drive preference: from rear-wheel drive to selectable and permanent all-wheel drive. Three different diesels with four to six cylinders and 2.0 to 3.0 litres of displacement ensure the right strength development.

**More driving modes, more driving comfort**

The preconfigured driving modes are new and come in many variations to support drivers in special off-road situations in several stages. More than 30 assistance systems\*, over 20 of which are completely new on-board the Amarok, provide additional driving comfort on request.

**Fording depth of 800mm**

Thanks to an 800mm fording depth – 300mm more than its predecessor – off-road fans can now immerse themselves even more fully in the world of off-road capability.

\*Dependent on trim specification. Images shown are for illustrative purposes only.

# This is **Design**

The design of Volkswagen Commercial Vehicles' new pick-up makes it clear right away: this is an Amarok. And yet every millimetre of the second generation of this all-rounder has been reimagined, redefined and redesigned.

Vehicle shown may not reflect UK specification.

The new Amarok is defined by clear, powerful contours and a slightly wider stance, providing a higher slope angle for improved off-road capability and presenting a confident, rugged appearance.

Its perfected body proportions ensure optimised driving characteristics on-road and off-road, while different expressive front designs offer a high degree of individualisation.

Images shown are for illustrative purposes only.

# Cabin

## Digital functions and analogue operation

The Amarok's premium exterior design is matched by a high-quality, fully redesigned interior. From the materials used, to its ingenious operating concept and superior connectivity, the pick-up's interior ambience is truly top-of-the-range.

### Key interior features

More legroom in the second row of seats thanks to the increased vehicle length

First-class seating and operating comfort combined with intelligent infotainment and state-of-the-art driver assistance systems

Many innovative equipment features, including the up to 12.3-inch Digital Cockpit, heated leather multifunction steering wheel, vertical touch colour display with up to 12-inch screen, USB-A and USB-C interfaces, Harman Kardon sound system with 8 loudspeakers, inductive charging function and background lighting

Robust and ergonomically perfectly designed and positioned control keys, push-buttons and rotary controls

Function keys as well as an on/off button and volume control for the infotainment system (from the Style onwards with chrome-look surround), 12-volt socket, USB-A and USB-C interface, and a mobile phone storage compartment (from the Style onwards with inductive charging function, otherwise optional) in the storage compartment below the touch colour display.

Images shown are for illustrative purposes only.

## Load capability

The new Amarok's loading area features lashing eyes and a longer 1,621mm load length. A range of load bed accessories, including electric roll top, hard tops and load liners, make the new Amarok even more practical than before.

Its towing weight of 3.5t is now for all automatic transmissions. There is also sufficient space on the loading area between the wheel housings for a Euro pallet to be loaded crosswise, which can be lashed in place with sturdy eyelets.

Vehicles shown may not reflect UK specification.

**Large cargo box and up to 1.1 tonnes payload**

The Amarok's maximum payload is up to a substantial 1.1 tonnes. It is also strikingly spacious behind the double cab in the cargo box. As was the case on the previous model, the cargo bed between the wheel arches has, at 1,227mm, enough room for a Euro pallet loaded sideways or lengthways. In order to make loading and unloading easier, there is also an LED light fitted in each of the cargo box's side walls (included as standard on the PanAmericana and Aventura).

**Load/trailer driver mode**

This driver mode assists the driver by modifying the automatic transmission when the Amarok is being driven with a full load and/or a trailer. In this mode changing up a gear doesn't happen until a relatively high engine speed is reached in order to utilise the full output/power of the turbocharged engines. It is also possible in 'Load/trailer' mode to use the engine braking effect in a more targeted way - through changing down a gear the braking effect then becomes all the more intensive the harder the driver presses on the brake pedal.

**Robust lashing rings**

The load is secured via lashing rings on the cargo bed and in the side walls of the cargo box. There are three fixed load-lashing rings on each side of the cargo box. The six rings have a total tensile load capacity of 400kg.

Images shown are for illustrative purposes only.

# The new Amarok Now with the 5+ Promise included

The new Amarok, the latest pick-up from Volkswagen comes with our 5+ Promise as standard. Featuring 5 services + 3 MOTs, 5 years' Warranty and 5 years' Roadside Assistance for added peace of mind.

5 Services + 3 MOTs  
5 Years' Warranty  
5 Years' Roadside Assistance

Covers first 5 consecutive services, limited to: 3 x Oil Service, 2 x Oil & Inspection Service with Pollen Filter, 3 x MOTs. Additional work, including wear and tear, is excluded. Warranty: earlier of 5 years or 124,000 miles. Servicing must be carried out in line with the requirements of the service schedule and all servicing and warranty work must be carried out at a Volkswagen Commercial Vehicle Authorised Repairer. Warranty exclusions apply (including shorter warranty period for components subject to wear and tear, mechanical adjustments (6 months/6,500 miles) and windscreen (1 month/600 miles). Roadside assistance: excludes costs of parts, garage, labour or other costs in excess of specified limits. Other limitations & exclusions apply. See Roadside Assistance Handbook for full details [https://www.volkswagen-vans.co.uk/idhub/content/dam/onehub\\_nfz/importers/gb/downloads/roadside\\_assistance\\_handbook.pdf](https://www.volkswagen-vans.co.uk/idhub/content/dam/onehub_nfz/importers/gb/downloads/roadside_assistance_handbook.pdf). Servicing & MOTs administered by Volkswagen Commercial Vehicle Financial Services. Warranty administered by Volkswagen Commercial Vehicles UK. Roadside assistance administered by AA.

# New driver assistance systems

The new Amarok brings plenty of state-of-the-art, innovative driver assistance systems to the world of pick-ups, offering class-leading comfort and safety. Many of the new advanced driver assistance innovations come as standard from the Amarok equipment line onwards, with plenty of other optional equipment to choose from.

**Rear Traffic Alert**  
Rear Traffic Alert provides visual and audible warnings of vehicles approaching the Amarok from behind, thanks to rear radar sensors.

Using this system requires front and rear Park Distance Control, which triggers when you engage reverse and is active up to 12km/h. It will also warn you if you approach objects too closely at speeds between 6km/h and 60km/h.

**The benefits**

- Simplifies reversing out of parking spaces in unclear parking conditions
- Prevents collisions or reduces their consequences
- Increases driver safety

**'Lane Assist' lane keeping system**  
The camera-based 'Lane Assist' lane keeping system detects lane markings on the road and keeps the Amarok within the lane. If the driver doesn't use a turn signal to indicate a lane change, the system issues a warning by vibrating the steering wheel or performs a minor steering intervention to bring the vehicle back into position.

**The benefits**

- Improved safety, especially when driving on motorways
- Reduced accident or collision risk in different traffic situations

**Adaptive Cruise Control ACC/ACC 'stop & go'**  
Adaptive Cruise Control is a helpful feature that automatically keeps you at a safe distance from the vehicle in front of you, depending on the speed set. The sensors for this are located at the front of the Amarok and in the upper area of the windscreen. Operated using buttons on the steering wheel, it can be activated from 20km/h. And if you're stuck in traffic, you can also use 'stop & go', which lets Adaptive Cruise Control bring your car to a complete stop. The system then remains active for up to 30 seconds and then restarts the Amarok as soon as the vehicle in front starts moving.

**The benefits**

- Improved safety in various traffic conditions thanks to an adaptive driving style
- Helps maintain concentration on the road ahead

**City Emergency Braking System with Pedestrian and Cyclist Monitoring**  
Automatic Autonomous Emergency Braking is an important feature of the Front Assist system. It provides an audible and visual warning if the front camera detects a potential collision. If the driver doesn't take action, the system will apply the brakes automatically.

**The benefits**

- A valuable aid in preventing collisions
- Helps avoid personal injury or damage to property

**Electronic parking brake**  
The electronic parking brake replaces a conventional handbrake and is operated by a switch in the centre console of the Amarok. When engaged, it provides identical clamping forces to ensure safe parking, even on extreme slopes. If starting on a slope, the system can act as a dynamic parking brake to prevent the Amarok from rolling back.

The electronic parking brake can also be used in an emergency to continuously brake or stop the Amarok with ease. Simply pull the switch up and hold to activate. The system interprets this as an emergency braking situation. A red warning light comes on, a warning signal is emitted, and the brake lights are turned on while the switch is held.

**The benefits**

- Simple operation by a switch
- Easier starting on slopes
- Improved safety in emergency situations where hard braking is needed

Vehicles shown may not reflect UK specification.

**Advanced airbag system with centre, curtain and knee airbags**  
All Amarok models come with various airbags to protect you in the event of a crash. These include front, knee, side and curtain airbags. In addition, there is a new centre airbag in the front, placed between the driver and passenger seats, that helps prevent them from colliding with each other in the event of an accident.

# New driver assistance systems (continued)

Images shown are for illustrative purposes only.

### Front Assist with warning and braking when vehicles, pedestrians and cyclists are detected

Autonomous Emergency Braking Front Assist uses a front camera for driver assist systems and front radar to detect imminent front collisions and to acoustically and visually warn drivers. In the event of danger, the system can even prepare the brakes for rapid braking, so that maximum braking force is generated with minimal pedal pressure. However, if a driver does not react to the warnings, Autonomous Emergency Braking Front Assist will automatically brake, bringing the Amarok to a standstill if necessary.

The Amarok also features swerve support, which helps drivers avoid collisions with stationary vehicles, pedestrians and cyclists by providing corrective steering intervention during a swerving manoeuvre. This adds an extra layer of safety for everyone on the road.

Front Assist works at speeds between 5km/h and 13km/h, and up to maximum speed in conjunction with Adaptive Cruise Control. Pedestrians are detected at speeds up to 80km/h.

#### The benefits

- An aid to help prevent potential collisions
- Helps avoid personal injury or damage to property

### Speed limiter

The speed limiter can be used to set an individual maximum speed for the Amarok. This can be temporarily exceeded by firmly depressing the accelerator pedal. Once the vehicle drops below the set speed, the system is automatically reactivated.

#### The benefits

- Relaxed driving with less fatigue, especially on long journeys
- Help to potentially save fuel and reduce emissions, depending on the maximum speed set

### 'Side Assist' lane change system

Side Assist lane change system detects vehicles approaching your blind spot. Its radar sensors on the sides of the Amarok detect an area extending from the exterior mirrors to approximately 4 metres behind the bumper. When driving at speeds above approx. 48km/h, the system will warn you if a vehicle is approaching quickly within a range of up to approximately 18 metres. The warning is visually indicated by a constant light in the respective exterior mirror.

Side Assist lane change system is combined with Rear Traffic Alert as standard.

#### The benefits

- Prevent dangerous situations by checking blind spots
- Reduced accident risk caused by lack of attention when changing lanes

### Intelligent Speed Assist

Intelligent Speed Assist is an intelligent predictive cruise control system that automatically adjusts the vehicle speed to the maximum speed detected on roads.

The system is an extension of Adaptive Cruise Control and uses the Dynamic Road Sign Display provided by the front camera to detect speed limits.

#### The benefits

- Helps avoid speeding violations and possible fines
- Keeps the Amarok at safe speeds to prevent collisions

### 'Area View' overhead view camera

The overhead view camera provides multiple views taken by cameras on all four sides of the Amarok. Selected on the infotainment display, they include a 360° overhead view. The function is automatically activated when the reverse gear is engaged.

The system provides a 360-degree view and helps with parking manoeuvres like parallel parking as well as obstructions and blind spots. It is also possible to display any traffic crossing in front of and behind the vehicle.

#### The benefits

- Helps detect obstacles early in unclear situations

### 'Park Assist'/'Park Assist Plus' parking steering assistance

Park Assist steering helps when parking in parallel and bay parking spaces. The system uses sensors to detect a free parking space, automatically steers the Amarok, and visually and audibly parks.

The 'Plus' version of Park Assist also controls the gearbox, acceleration and brakes to drive the Amarok into, or reverse out of, a parking space. The system takes over reverse parking in parallel spaces, forward and reverse parking at right angles to the flow of traffic, and driving out of a parallel parking space. The parking manoeuvre can be slowed down, interrupted or cancelled at any time.

The system is activated by pressing the 'P' Park Distance Control button below the infotainment display and selecting the required parking mode from the Park Assist menu on the touch display. The system searches for a parking space on the front passenger side by default, but the search side can be changed by using the turn signal and main beam lever.

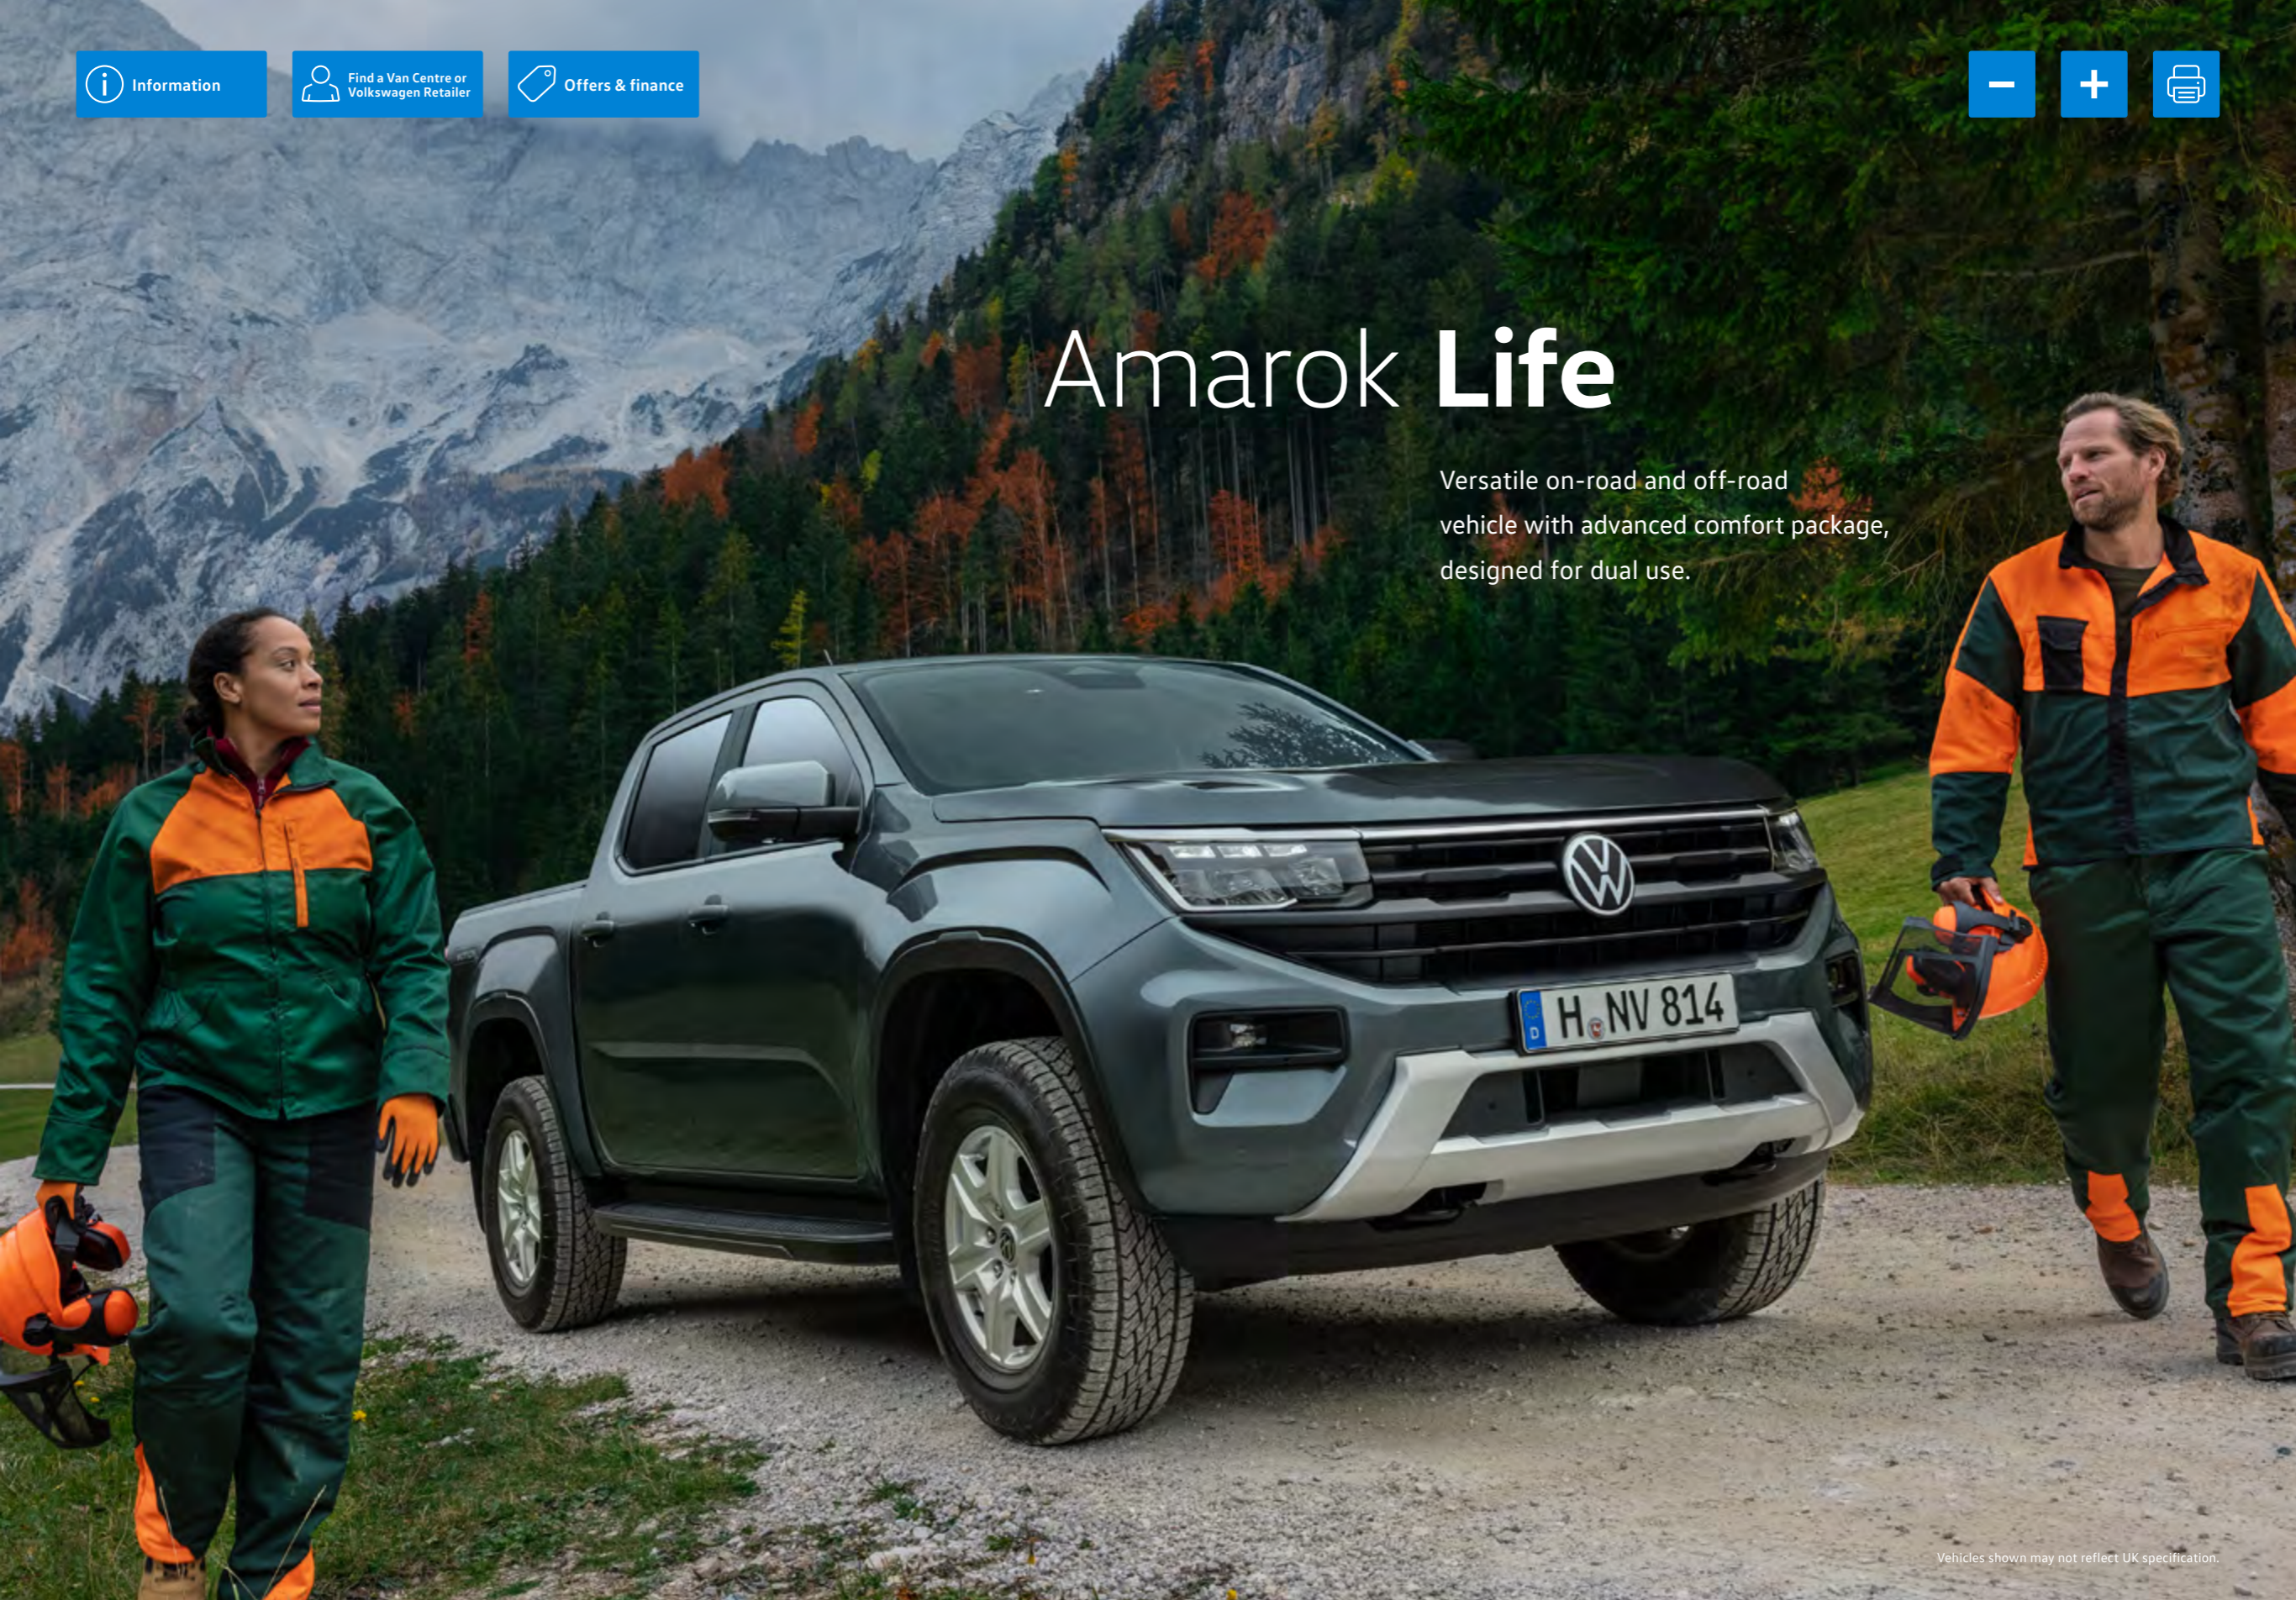

A distance between 0.5m and 1.5m needs to be selected to search for a parking space. The speed when searching may not exceed 35km/h for parallel parking spaces, and 30km/h for bay parking spaces.

#### The benefits

- Improved convenience and safety in everyday driving
- Avoidance of parking bumps and possible repair costs or downtime

# Amarok Life

Versatile on-road and off-road vehicle with advanced comfort package, designed for dual use.

Vehicles shown may not reflect UK specification.

## Standard Equipment highlights of the Amarok Life.

Interior	Infotainment Package	Driver Assistance Systems	Service and Warranty
Vinyl floor covering	8" Digital cockpit with colour screen	'Lane Assist' lane keeping system	<b>5+ Promise:</b>
Leather-wrapped multi-function steering wheel	Preparation for online services	Park Distance Control in front and rear with manoeuvre braking	5 Services + 3 MOTs*
Glove compartment with illumination	10" Infotainment system with colour touch screen	Headlight range control	5 Years' Warranty*
Sun visor on driver and front passenger side with illuminated vanity mirror	DAB+ digital radio reception	Adaptive cruise control (ACC) 'follow to stop' up to 160km/h incl. speed limiter	5 Years' Roadside Assistance*
Headliner (in Stone Gray)		Rear view camera	
Gearshift/selector lever knob, leather	<b>Safety and Security</b>	Dynamic road sign display	
2 reading lights for driver and front passenger with glasses compartment in overhead console	Electronic Stability Control		
Driver and front passenger seats with 8-way adjustment	Lockable wheel bolts		
Driver seat with map pocket	Child seat anchors ISOFIX on outer rear seats, i-Size compatible		
Air conditioning system with manual control	3 head restraints in second row of seats		
Seat trims 'Life' fabric	3-point belts, height adjustable in first row of seats		
	Rear gate lockable via central locking system		
	Central locking with radio remote control, interior controls with SAFELOCK		
	Airbags incl. knee airbags for driver and front passenger and front passenger airbag deact. and child seat recognition		
	Side and curtain airbags including centre airbag		
	Anti-theft alarm system with interior monitoring, backup horn and towing protection		
	Automatic Post-Collision Braking System		
	eCall Emergency System		
	Warning signal and warning light for front and rear seat belts not fastened		
	Autonomous Emergency Braking Front Assist with Pedestrian and Cyclist Monitoring		
	<b>Functional Equipment</b>		
	Towbar preparation		
	Fuel tank volume (80 litres)		
	Electromechanical parking brake		

\*Covers first 5 consecutive services, limited to: 3 x Oil Service, 2 x Oil & Inspection Service with Pollen Filter, 3 x MOTs. Additional work, including wear and tear, is excluded. # Amarok **Style**

An elegant all-rounder that never fails to impress with its wealth of additional design and comfort features.

Vehicles shown may not reflect UK specification.

Image shows Style trim with optional Premium + Towing pack.

Standard equipment of the Amarok Style (in addition to Life).

Interior

- Dual-zone climate control
- 10-way power-adjustable driver seat and 8-way adjustable front passenger seat
- ArtVelours microfleece fabric seats
- Carpet floor covering in cab
- Ambient lighting

Exterior

- 18" Amadora alloy wheels – silver
- Chrome styling bar
- Side step black with chrome insert
- Grille with chrome strip

Infotainment

- Digital Cockpit 12"
- Infotainment: 12" with navigation
- Inductive phone charging
- Heated windscreen

Driver Assistance Systems

- IQ.LIGHT LED matrix headlamps
- Area View 360° camera
- Park Assist inc. Park Distance Control in front and rear including Rear Traffic Alert
- Adaptive Cruise Control ACC and Dynamic Road Sign Display
- Lane keeping system Lane Assist and lane change system Side Assist
- Remote control central locking system with keyless starting system
- Tyre pressure monitoring system

Functional Equipment

- 120-V / 230-V outlet in rear centre console
- 120-V / 230-V outlet in load bay

Images shown are for illustrative purposes only.

# Amarok PanAmericana

A distinctive and stylish outdoor specialist with strong off-road design, loaded with exclusive equipment features.

Vehicles shown may not reflect UK specification.

Standard equipment of the Amarok PanAmericana (in addition to Style).

Interior

- Cricket leather seats
- 10-way power-adjustable driver and front passenger seats

Exterior

- 18" Amadora alloy wheels – black
- Matt black styling bar
- Side step black
- Silver roof rails
- Contrast mirrors and door handles
- Body-coloured bumper in front, X-style

Infotainment

Harman Kardon premium audio system with eight loudspeakers, inclusive of sub-woofer, and 640 watts output

Functional Equipment

- Differential lock in rear
- Underride guard
- LED cargo area lighting
- Comfort suspension system

Images shown are for illustrative purposes only.

# Amarok **Aventura**

Our exceptional top-of-the-range lifestyle-oriented model, for stylish urban and off-road use. Setting new pick-up standards with its singular design, equipment details and unique pick-up feel.

Vehicles shown may not reflect UK specification.

### Standard equipment of the Amarok Aventura (in addition to Style).

<b>Interior</b>
Savona leather seats
10-way power-adjustable driver and front passenger seats
Heated steering wheel
<b>Exterior</b>
21" Varberg Alloy wheels – silver
Silver roof rails

# Connected infotainment

At the cutting edge of the digital media age.

### Online-capable as standard

The new Amarok is equipped with the latest technologies as standard, which enable it to connect to the internet or a mobile network, and provide the user with access to a range of different functions.

### Online Connectivity Unit (OCU) with built-in eSIM card

Serves as an access unit to the internet for the use of the vehicle-specific Volkswagen Commercial Vehicles mobile online services.

### Apple CarPlay™ and Android Auto™

Both provide for the integration of Apple and Google smartphone apps into the infotainment system operated using the touch colour display (can also be used wirelessly).

The new Amarok is online-capable as standard (illustration shows the Aventura equipment line). Images shown are for illustrative purposes only.

1 Unladen weight includes approximately 90% fuel load and 75kg for driver.

2 Payload = gross vehicle weight minus unladen weight. Quoted weights are for vehicles with standard specification. Unladen weight and payload may be influenced by trimline, factory options and Van Centre fitted accessories. Roof load limit: 100kg (with two roof carriers) or 150kg (with at least four roof carriers). Trailer nose weight: 100kg.

**Volkswagen Commercial Vehicles may change RRP's at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen authorised Van Centre.**

1 Figures shown are for comparability purposes; only compare fuel consumption and CO2 figures with other vehicles tested to the same technical procedures. These figures may not reflect real-life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Data correct at 1.9.2022. Figures quoted are for a range of configurations (including non-UK) and are subject to change due to ongoing approvals/changes. Please consult your authorised Volkswagen Van Centre for further information.

2 From 1 April 2021, the official CO2 emissions values used to calculate Vehicle Excise Duty (VED) charges will change for all passenger car registrations in the UK, due to a change in the method of testing. This will affect the Recommended 'On The Road' (ROTR) price you pay (in most circumstances, prices will increase). The Recommended 'On The Road' prices and any VED charges quoted reflect the VED charges which apply to vehicles registered after 1 April 2021. Choice of wheels and other options may affect fuel consumption, BIK and emissions data (which may affect the amount of VED payable and therefore the ROTR price). The price and charges you pay may differ from any prices or charges displayed or quoted before 1 April 2021.

# The new Amarok

This brochure supersedes all previous publications.

Issue: 1 November 2023

(Model Year 24)

[www.volkswagen-vans.co.uk](http://www.volkswagen-vans.co.uk)

Please note: Screen technology does not allow exact reproduction of the paint and upholstery colours. Some of the vehicles shown are European specification and may be fitted with optional equipment or accessories that are available at extra cost, or do not reflect current specification. All data and specifications are in accordance with information available at the time of publication and are subject to change without notice. Vehicles not currently in UK stock and customer order vehicles may take a number of weeks for delivery. Certain combinations of vehicle specifications and factory-fitted options are not compatible and therefore all orders received are subject to confirmation. Models, factory fitted-options and paint and upholstery options are subject to availability. Please check details and availability with an authorised Volkswagen Van Centre at the time of ordering.
